

# model 1025G

Barrier-Free Wall Mount Fountain

## **FEATURES & BENEFITS**

#### CONSTRUCTION

Barrier-free design made of heavy-duty 11 gauge galvanized steel with green powder-coat finish. Unit has a high-polished stainless steel basin that resists stains and corrosion, recessed push-button, welded bubbler guard, and vandal-resistant bottom plate.

#### **DRAIN CLEAN-OUT**

Top-down access to the drain allows the fountain portion to be cleaned without taking the unit apart, good for outdoor settings with drain-clogging sediment such as leaves, garbage, and other debris.

### **INTEGRATED TRAP**

All cast brass 1-1/4" NPT adjustable traps completely concealed inside bottom plates for easy installation and lack of unwanted access.

#### QUALITY CONTROL

Pre-built fountain is pressure tested to ensure no leaks and proper functionality.

#### **GALVANIZED FINISH**

Tough galvanized coating is ideal for areas where rusting is an issue, and vandalism and graffiti could be present. Due to the galvanizing process, appearance will be a rough, unfinished galvanized surface.

#### **BUBBLER HEAD**

Polished chrome-plated brass bubbler head with integral basin shank for added strength. Shielded, angled stream opening provides a steady, sanitary source of drinking water at .45 gpm.

#### **DRINKING FOUNTAIN VALVE**

The push-button activated valve offers the only all stainless steel valve body that is machined out of solid bar stock, is fully serviceable through the front of the push button assembly offering access to the water control cartridge and integral water supply strainer, and with front access to the water stream height adjustment for easy maintenance without having to remove the valve. Operating pressure range of 30 to 90 psi (2.1 to 6.2 bar).

#### FOUNTAIN PUSH BUTTON

All chrome plated brass push button resists vandalism by allowing it to spin without unscrewing.

## **OPTIONS**

- □ Remote Drinking Fountain Water chiller: Model HCR8, 8 gph (30.3 L) remote water chiller provides instantaneous cooling to meet a continuous demand for chilled water.
- ☐ Mounting Plate: Model 6700 universal mounting plate for most wall mounted fountains. Priced Separately.
- □ Support Frame: Model 6800 universal in-wall mounting support for use with most fountains.

# **SPECIFICATIONS**

Model 1025G wall mounted barrier-free drinking fountain shall include a stainless steel basin contained in an 11 gauge galvanized steel wall bracket, push-button operated stainless steel valve with front-accessible cartridge and flow adjustment, polished chrome-plated brass vandal-resistant vandal-resistant shielded bubbler head, 100% lead-free waterways, polished chrome-plated brass vandal-resistant waste strainer with top-down access, vandal-resistant bottom plate, and chrome-plated 1-1/2" trap.

# **APPLICATIONS**

Perfect for either public or private outdoor settings, Model 1025G is a great fit in areas where durability is important. Suitable in areas where weather conditions exist, this series is precisely mounted to make it a nice addition. Specifically, this type of wall mounted drinking fountain may be placed in settings such as: parks, schools, and other outdoor environments where the temperature remains above freezing. Model meets all current Federal Regulations for the disabled including those in the Americans with Disabilities Act. Haws manufactures drinking fountains and electric water coolers to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, NSF/ANSI 372, California Proposition 65, and the Federal Safe Drinking Water Act. Product is compliant to California Health and Safety Code 116875 (AB 1953-2006) as evaluated by CSA International.
