LAVATORY FIXTURE - 5118

Item:				

Unit may be pictured with some optional features.

☐ 5118 High Abuse Lavatory

STANDARD FEATURES

- Chase mounted fixture, wall outlet waste.
- Lavatory basin-
 - · Oval lavatory basin
 - Multi-hole integral drain.
 - Stainless steel elbow waste with 11/4" (32mm) OD plain end extended 4" (102mm) past back of fixture.
- 4" (102mm) high back splash.
- · Integral soap tray with ribbed bottom.
- · Integrally welded bottom enclosure.
- Hardware-
 - · Plated steel concealed anchor rods and fasteners.

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov.

▶ DESCRIPTION

This Lavatory Fixture is designed for areas with an accessible pipe chase. The fixture is fabricated using heavy gauge type 304 stainless steel, welded to form a vandal resistant unit. Internal piping is stainless steel. Lavatory is designed with a 4" (102mm) high back splash and integral ribbed soap tray. Exposed surfaces are polished to a satin finish. Valves and valve outlets must be specified separately.

▶ PERFORMANCE STANDARDS

This fixture meets or exceeds ASME A112.19.3 / CSA B45.4 standards for "Stainless Steel Plumbing Fixtures".

Listed by

► INSTALLATION

An accessible pipe chase is required. Four anchor rods are screwed into sockets on back of the fixture. Anchor rods pass through the wall and are secured from the pipe chase using washers and hex nuts provided. The installer must provide wall openings for anchor rods, piping and valve operators per rough-in drawings provided by Metcraft. Valves should be installed in the pipe chase.

NOTE: A security frame (wall sleeve) is recommended when installed on a new block (CMU) or poured concrete wall. A security frame is not appropriate for hollow wall construction.
